Sales Letter #3641-B

From: Daniel E. Hotle,
Sales Manager

Subject: Re-design A19463 Deadlocking Throw Member Assembly
6B Deadlocking Padlocks

Please review the attached sample of the A19463 Deadlocking Throw Member Assembly. This is the second re-design of this throw member assembly. In the first re-design (refer to Sales Letter 3430-B, Dec.1, 1983) the throw member assembly had a straight machined groove. This throw member is no longer available.

If you have any 6B padlocks on the shelf with the old deadlocking throw member assembly (straight slot) or extra deadlocking throw member in stock, send them back to the factory to have the throw plug exchanged to the attached sample. This work will be done at no charge to you. If you should have any questions please direct them to the Sales Department.

Sincerely,

Daniel E. Hotle
Sales Manager
